DEER LAKE, N.L. — On Saturday at the Upper Humber Rod and Gun Club on Goose Arm Road in Deer Lake, Stewardship Association of Municipalities, Upper Humber Rod and Gun and the Town Of Deer Lake jointly organized activities to celebrate World Water Day.

A smaller than expected number of participants came out but the presenters, Kim Sheehan, fisheries officer and Elisabeth Belanzaran, conservation biologists with Stewardship Association of Municipalities, along with members of the Upper Humber Rod and Gun Club, felt it was a successful start and partnerships had been built and groundwork established to grow the event next year.
